

## XT10

Compact and Powerful: The dual button tail switch XT10 Tactical Flashlight is designed to meet the extreme demands of Law Enforcement and the Military but is also perfect for general outdoor use

### Features:

3Dual button tail switch for quick, one-hand operation. No need to fiddle with switches in two different places

- ※ Mode switch provides good tactile feedback and is very easy to locate in the dark
- ※ Strobe can be activated with the Mode switch when the flashlight is on or off, giving instant access to Strobe from any mode
- ※ Forward tactical main switch with momentary activation
- ※ Maintains constant brightness with super high efficiency
- ※ Max output: 470 ANSI Lumens on high
- ※ Max run time: 300 hours (12.5 days) on low
- ※ Reverse polarity protection protects flashlight and battery from damage

### Specification:

- ※ CREE XM-L (T6) LED with a lifespan of up to 50,000 hours
- ※ Three lighting modes and 1 flashing mode:
  - Lighting modes: 470 lumens (3hrs) --- 150 lumens (7.3 hrs)---  
10 lumens (300hrs)
  - Variable frequency strobe: 470 lumens (6 hrs)
- ※ Working Voltage: 3V-10V
- ※ Battery: 2 x CR123A / 1 x 18650 / 2 x 16340
- ※ Body color: Military grey
- ※ Reflector: Textured orange peel reflector
- ※ Switch: a)Tactical main switch for turning the light on and off. Momentary activation from off.  
b)Dedicated mode switch for instant access to strobe and changing modes
- ※ Lens: Toughened ultra-clear glass

- ※ Material: Aircraft grade aluminum
- ※ Dimensions: 143mm (Length) x 34 mm (Head) x 25(Body)
- ※ Net weight: 118g (Excluding battery)
- ※ Waterproof to IPX-8 Standard (underwater to 2 meters)
- ※ Included accessories: holster, lanyard, body clip, tactical ring,two spare o-rings, and a spare rubber switch boot

The above-mentioned parameters are approximate and may vary between flashlights, batteries and environments; Data was achieved using SANYO 18650 2600 mAh lithium ion batteries.

### Operation

- ※ To activate constant on, press tail/higher switch fully so that it clicks. To turn the flashlight off, press tail switch fully so that it clicks.
- ※ Changing brightness levels: When the flashlight is on, press the mode switch and then release it immediately; the brightness mode will change: High—Medium—Low.
- ※ Strobe access

With the flashlight turned off, press the mode switch for instant access to strobe. With the flashlight turned on, press the mode switch for more than 0.8 seconds to access strobe. Release mode switch within 2 seconds to return to your previous lighting mode. Holding the mode switch for more than 2 seconds will lock the light in strobe mode. Pressing the mode switch will stop the strobe mode and return the light to its previous lighting mode.

- ※ Momentary activation: lightly press the main tail switch with no click.

### Battery Replacement

Unscrew the tail cap of the flashlight and insert the battery with positive side toward the light's head. Screw the tail cap back on to operate the light.

### Usage and Maintenance

- ※ Do not shine light directly into eyes.
- ※ Use only quality brand name batteries.
- ※ Remove battery when stored for extended periods.

- ※ Replace and lubricate O-Rings as needed to maintain IPX-8 rating.
- ※ Use soft brush and soapy water to clean the body of the flashlight.

### Warranty Service

Klarus guarantees the flashlight against defects in material and workmanship. Flashlight products that are found to be defective under normal use within 2 years of the proof of purchase date will be repaired or replaced without charge. This warranty does not cover damage caused by accident, unreasonable use or product alteration. Failure to follow the general maintenance directions could result in damage to your flashlight that may not be covered by the Klarus warranty.

If this flashlight should prove defective, the product will be repaired or replaced, under the above terms. Please contact Klarus or your original Klarus dealer for warranty return instructions
